

Brain MRI—skull base

- Routine brain sequences plus:
 - 3 mm axial T2 FS through skull base
 - 3 mm coronal and axial T1 through skull base (DO NOT FAT SUPPRESS)
 - Axial CISS or FIESTA from bottom of corpus callosum to top of dens
- Post-contrast:
 - 3 mm coronal and axial T1 FS through skull base
 - 3 mm axial T1 non-FS through skull base
 - Whole-brain axial T1 (5 mm)
