

Routine brain MRI w & w/o

- Pre-contrast:
 - Sagittal T1
 - Axial T1
 - On 3T, replace both T1 sequences with sagittal T1 MPRAGE and reconstruct axial and coronal T1 instead
 - Axial DWI/ADC
 - Axial FLAIR
 - Axial SWI (if available) or GRE (if SWI not available)
- Post-contrast:
 - Axial T2
 - 3D T1 MPRAGE sagittal → recon coronal and axial
 - Axial T1 spin echo
